- Ability to understand non technical clients & simplify decisions
- Time Management
- Ability to work with Team

ABOUT ME

I'm a passionate front-end designer with a sharp eye for detail and a love for clean, user-focused design. I specialize in turning ideas into responsive, interactive web experiences using HTML, CSS, JavaScript, and modern frameworks. Whether it's building from scratch or bringing life to existing designs, I thrive on creating interfaces that look great and perform even better.

EXPERIENCE

Graphic / Website Designer

2024 - 2025

Global Sight Travels & Educational Consult | Ojodu-berger

- Designing and creating visual content for marketing materials, including brochures, flyers, and social media posts.
- Developing and designing websites in alignment with the company's branding and user experience standards.
- Working collaboratively with other departments to ensure all visual materials meet the brand's high standards.

Website Designer (Intern)

2023

Babs Digital | Abule-egba, Lagos

- Tested websites for usability, performance, and browser compatibility, ensuring clean, optimized, and bug-free front-end experiences.
- Collaborated with developers and content teams to turn design mockups into functional layouts aligned with brand guidelines.
- Assisted in designing and updating responsive web pages using HTML, CSS, and JavaScript to improve UI/UX across devices.
